

FOSTERING FEMALE ENTREPRENEURSHIP MINDSET

Welcome to the 2nd project's newsletter, whether you have followed us since the beginning of the project, or if you have just joined our journey, we want to thank you for joining us and supporting us!

Pandemic times

The pandemic has heated hard into European projects as many activities have been cancelled or postponed while other have been successfully carried out online.

Over the last months, FFEM partners have been working on the development of the contents for the three curricula which will shape the entrepreneurship training.

The contents for the face to face and online training are already being evaluated by our Local Working Groups in order to have an external validation. Besides, during the C1 activities three trainers from each partner will experience a 3 day workshop where they will test both face to face and online training.

With this, we aim to get feedback to improve not only the contents, but also the training experience, the visual aspects and the online platform.

Online work

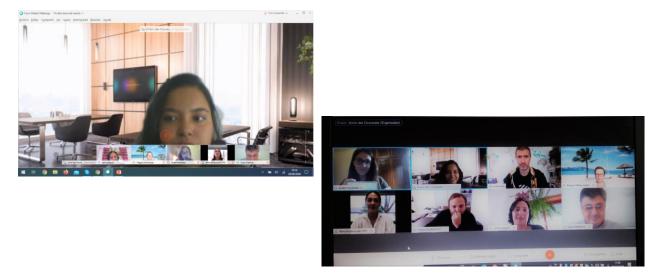

For all the activities to be carried out and for the good development of the project, several skype meetings have been held all over the year. UCE, as the coordinator of the project, is the partner in charge of organising each of the online meetings. The partners are also responsible for carrying out their assigned tasks and to

Co-funded by the Erasmus+ Programme of the European Union

evaluate them together with the rest of the consortium during these meetings and through other evaluation methods, as LWG, questionnaires, etc.

SKYPE MEETINGS

C1 Training activity

of the European Union

Petra Corsica will be the leader partner for this three day training experience, with the support and coordination of the rest of the partners.

At first partners agreed to hold a face to face C1 between August and September 2020 but, regarding the different restrictions and recommendations in the different countries, all agreed to postpone it to the end of the year and to do an online training.

Partners will work hard to make this training as profitable as possible and to ensure that good conclusions that will help the project results can be drawn from it.
